## UK Selected Market Highlights (4) Full Year 2018

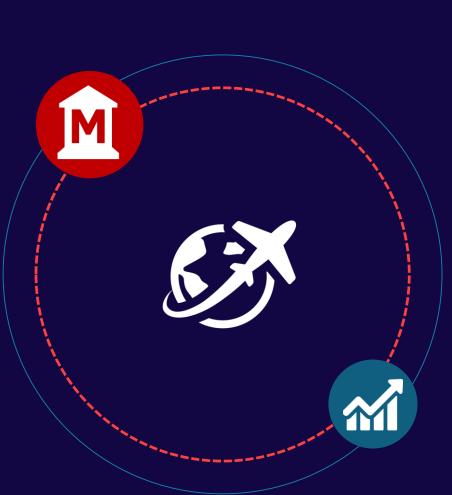

- USA: visits were down 1% in 2018 to 3.9 million compared to the record set in 2017, although the USA still overtook France to become the UK's largest inbound market by volume. USA visitor spending was also down (7%), again against the record set in 2017. Putting the records of 2017 to one side, it is encouraging to see visits 12% higher in 2018 compared to 2016, and inbound visitor spending 1% higher.
- **China**: posted record visit results in all quarters of 2018. In total there were a record 391,000 visits from China to the UK in 2018, up 16% on 2017. While Q1 and Q4 saw record breaking spending levels, a decline in Q2 and Q3 (compared to the records set in 2017) means Chinese visitors spent a total of £657 million in 2018, 5% down on the record set in 2017.
- **France**: visits to the UK from France in were 7% down on the results posted in 2017 at 3.7 million. There have been 7 consecutive quarters of year on year visit declines to the UK from France (since Q2 2017). Visitor spending hasn't seen the largely negative visit trends more recently, although finished the year down 3% compared to 2017 results at £1.4 billion. This is still some way off the record spent in 2012 (£1.5 billion).
- Australia: there were just over 1 million visits from Australia to the UK in 2018 down 8% on 2017 visit numbers. Spending too has not been as strong in 2018 in 2017, falling 13% in 2018 to a little over £1 billion.
