

Safer travel to Jersey

Before you begin travelling

You're required to complete an online registration form before departure, giving your personal details.

This includes a declaration of health, countries that you have visited before arrival, whether you have any symptoms of COVID-19, have been diagnosed with COVID-19 before arrival, or have been in close contact with an infected individual.

Negative PCR test

If you provide documentary evidence of a negative PCR test result, conducted in your jurisdiction of departure, you will not need to self-isolate or be tested upon arrival in Jersey. This test must have been taken within the 72 hours before arrival in Jersey.

Testing on arrival (exempt from self-isolation)

Testing will be provided on arrival at Jersey International Airport and St Helier Harbour, Elizabeth Terminal.

This procedure will involve a swab being taken from the back of your throat and nose.

Self-isolation

If you do not agree to testing on arrival you will be required to self-isolate for 14 days after arriving in Jersey unless exempted from doing so.

All information on self-isolation requirements is available on the Gov.je website. All passengers are reminded that failure to self-isolate when required is a criminal offence punishable by a fine of up to £1,000.

Waiting for your results

You can expect to receive your test result within 48 hours (we are working towards reducing this to 12 hours or less). You are not required to self-isolate while waiting for test results but are asked to:

- limit the time you spend away from your residence or visitor accommodation
- limit social contact during this time and strictly adhere to Jersey's physical distancing of 1 metre
- avoid public transport when possible
- avoid indoor gatherings, including bars and restaurants, if at all possible

Positive COVID-19 test result

If you test positive, you will receive a phone call with your result and guidance on the support available from the Contact Tracing Team. You'll be notified in writing that your exemption from self-isolation has been withdrawn and will be instructed to self-isolate.

You will be required to provide information to the Contact Tracing Team about who you have come into close contact with in the days prior to receiving your test result.

Non-Jersey residents who are required to self-isolate and do not have access to a suitable location where they can do so should raise this when they receive their positive result, or should contact the helpline at the earliest opportunity on **+44 (0) 1534 445566**.

Negative COVID-19 test result

You will receive a text message informing you of your negative status.

After this you can enjoy your stay, but are expected to continue following all current Public Health guidance.

A text messaging service will be used to stay in touch with you, and you should report any new symptoms during your stay. If you develop symptoms you will receive a phone call and be asked to have a second test.

Enjoy your stay!
